## TRENCHES PLOWED UP BY SHELL FIRE

Germans Succeed in Regaining a Portion of Lost Ground in Givenchy.

## ANOTHER ZEPPELIN RAID OVER LONDON

Eight Killed and Thirty-four Injured by Bombs Dropped on City; Three Divisions of Germans Shattered by Russ.

London, Oct. 14.—The Germans, after delivering a series of sledge-like blows against the French front between Angres and Neuville, in Artois, Wednesday succeeded in capturing a portion of the French trenches in the Givenchy woods. It was on this section of the front that the French made their great gain in the drive of last month. Heavy forces were employed by the Germans and every vital point on the line was attacked. The trenches captured were literally plowed up by the shell fire from the heavy guns. With the exception of these torn up trenches the Paris official statement says the French line held everywhere.

Bombard Railway Yard. Aerial raids were carried out on an extensive scale by the French corps during the day. Eighteen machines bombarded the railway yard at Achiet Le Grand, near Bahaume, south of Albert.

On the Champagne front another squadron of 19 aeroplanes hurled 140 bombs on the railway station of Bazancourt, junction point and terminal of the Challerange-Bazancourt, main stem of the German supply system in the Soissons angle.

Artillery fighting has been vigorous and uninterrupted in the whole of the southwest angle of the battle front as well as in the Vosges, where the French are still threatening the approaches to the Rhine line. On the Linge crest the Germans captured from 60 to 80 yards of the French first line trenches, and on the western slopes of Schatzmaennels the Germans took further sections of the French defenses.

## Zeppelins Drop Bombs on London.

The official press bureau announces: "A Zeppelin raid occurred Wednesday evening over the London area. A number of incendiary bombs were dropped. The material damage was small. So far as reported the casualties were two women and six men killed and 34 injured. One soldier was among the killed, the other civilians."

Petrograd, Oct. 14.—In staff circles it is estimated that about three enemy divisions were shattered by the Russian success on the Strypa. The Galicia army, which suffered this blow, is under Gen. Von Linsingen and includes German and Austrian corps. A great deal of importance is attached to this success, as it was won by a move made to counter the advance of the enemy, whose plans consequently have been upset and who, it is assumed, will be compelled to carry out a far-reaching rearrangement of his forces before he can hope to recover his lost ground.

## ARE NOT AFTER TRADE

BUSINESS FOR 1916 NOT AS GREAT AS MIGHT BE EXPECTED WITH STEEL SCARCE.

New York, Oct. 14.—The Iron Age says: The volume of current business for 1916 delivery is not as great as might be expected with steel as scarce as it is and with the expectation general that this tightness will continue for months. Few mills are making any effort to sell for any part of next year, but the steel corporation's gain of 400,000 tons in unfilled orders is taken to mean that it had done more selling for the first half than its competitors. Some companies are holding off because they are well sold up.

## Shipping Legislation.

Indianapolis, Oct. 14.—In a speech here before the business men of the city Secretary of the Treasury McAdoo disclosed his new plan for shipping legislation. Mr. McAdoo presented in a new dress the old government ownership plan, which was defeated in the last session of congress after a long fight. He proposes that congress shall appropriate \$50,000,000. Instead of buying ships already plying the seas, he now advocates the building of new vessels, designed as auxiliaries to the United States navy.
